

WHO SHOULD ATTEND

Anyone with a stake in New York's evolving energy industry should attend the IPPNY fall conference, including:

- ✓ policy makers
- ✓ developers and operators of electric generation projects
- ✓ power marketers
- ✓ government affairs specialists
- ✓ members of the financial, fuel, insurance, equipment, consulting and legal communities

ABOUT US

IPPNY is a New York State trade association representing companies in the competitive power supply industry. IPPNY members are involved in the development of electric generating facilities; the generation, marketing and sale of electric power; and the transmission of natural gas. Utilizing cutting-edge technologies and fuel types such as co-generation, nuclear, hydro, coal, wind, landfill waste, resource recovery and biomass, IPPNY member companies produce more than 75 percent of New York State's electric power. IPPNY's mission is to assist its member companies in becoming the premier providers of electricity in New York State.

President & CEO
IPPNY

8:45-9:15 AM

DOREEN HARRIS
President & CEO
NYSERDA

9:15-10:30 AM

New York's Climate Leadership and Community Protection Act at a Glance

Moderator:

DONNA DECAROLIS
President
National Fuel Gas Distribution

Panel Participants:

JOHN REESE
Senior Vice President
Eastern Generation

KIT KENNEDY
Senior Director, Climate & Clean Energy Program
Natural Resources Defense Council

MICHAEL MAGER
Partner
Couch White, LLP

WILLIAM ACKER
Executive Director
New York Battery and
Energy Storage Consortium

10:300-11:00 AM

Networking Break

11:00-12:00 PM

Cryptocurrency Mining & Impacts on the Energy Industry

Moderator:

DENNY GALINDO
Investment Strategist
Morgan Stanley

Panel Participants:

DALE IRWIN
President & CEO
Greenidge Generation

ADDIE A. .E. JENNE, ESQ.
Legislative Counsel
NYS Association of Electric Workers
Construction Business Managers

DOUG MILLER
Global Markets Lead
Energy Web

12:45-1:30 PM

Keynote

DR. MELISSA C. LOTT
Senior Research Scholar &
The Director of Research
Columbia Center on Global Energy Policy

Dr. Melissa C. Lott is a Senior Research Scholar and the Director of Research at the Center on Global Energy Policy, where she leads the Power Sector and Renewables Research Initiative. She has worked as an engineer and advisor for more than 15 years in the United States, Europe, and Asia. While her work has spanned the entire energy system, Dr. Lott is internationally recognized for her work in the electricity and transportation sectors. For her research and contributions to global energy sector dialogues, Dr. Lott has been featured as a Solar 100 Thought Leader, an IEEE Women in Power, and a Forbes 30 under 30 in Energy.

Dr. Lott specializes in technology and policy research, working to increase our understanding of the impacts of our energy systems on air pollution and public health. She directly applies this understanding to help decision-makers mobilize technology and policy solutions to support the transition to low-carbon energy systems. She has authored more than 350 scientific articles, columns, op-eds, journal publications, and reports. Prior to joining the Center for Global Energy Policy, Dr. Lott served as the Assistant Vice President of the Asia Pacific Energy Research Centre, where she led the development of the flagship APEC Energy Demand and Supply Outlook. Dr. Lott has also held roles at the International Energy Agency and was selected as a U.S. Presidential Management Fellow where she went on to work as the Lead of Energy Modeling and Simulation for the Program Analysis and Evaluation Office at the U.S. Department of Energy. Dr. Lott has also served as an advisory board member for Alstom and GE and contributed as an expert advisor for government organizations. Throughout, Dr. Lott had worked as a Principal Engineer at YarCom Inc., providing her clients with a practical engineering understanding of the relationships between our energy sources, our energy uses, and the impacts of our choices on the environment.

Dr. Lott holds degrees from the University of California, Davis (Bachelor of Science - Engineering), the University of Texas at Austin (Master of Science - Engineering and Master of Public Affairs), and University College London (Ph.D. in Sustainable Energy Resources and Engineering). While in university, Dr. Lott completed internships at the White House Council on Environmental Quality under President Obama, the U.S. Energy Information Administration, and Sandia National Laboratories in Albuquerque, New Mexico.

SPONSORSHIP OPPORTUNITIES

One of the most cost-effective ways to get your organization and team in front of key executives and decision makers involved in New York's energy industry is to become a sponsor. It is an excellent way for your organization to:

- Promote products, services and solutions to a New York audience of major energy sector players, elected officials, policy makers and regulators.
- Engage the top people in the energy industry – in one place, at one time.
- Support IPPNY's mission and ongoing efforts to foster a strong and competitive energy market.
- Be part of this year's conference and benefit from networking opportunities as well as productive dialogue on how to best achieve our mutual energy goals!

Complete sponsorship descriptions and benefits are available online at www.ippny.org.

Host Sponsor	\$1,500
Network Sponsor	\$650

All sponsors must sign-up before August 13, 2021! Sponsorships are limited and are on a first come, first served basis.

REGISTRATION & FEES

Early Conference Registration

(before August 13, 2021)

IPPNY Members: \$300
